# Quality at Work

## Implementing ISO 9001:2008

### About

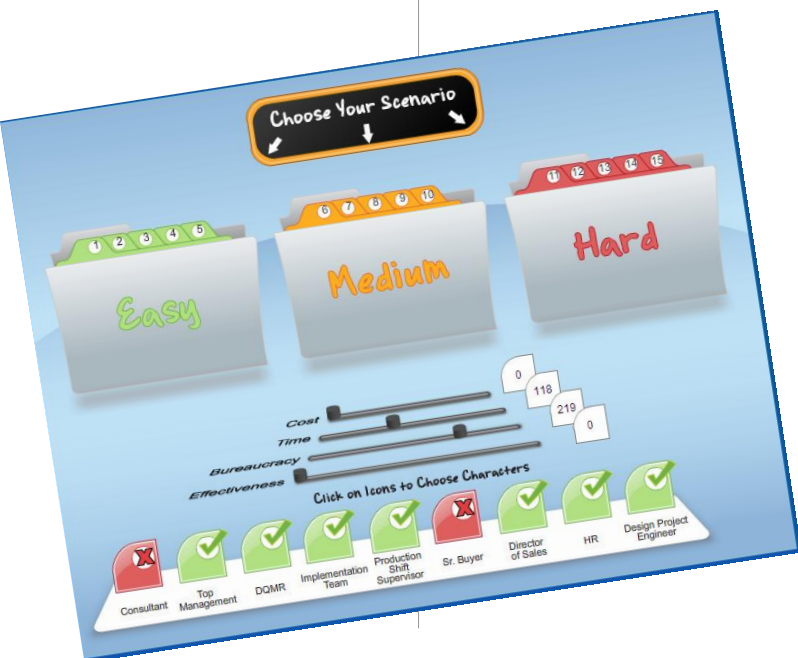

Quality at Work: Implementing ISO 9001:2008 is an interactive learning module which allows the student to practice planning and managing the effective implementation of a Quality Management System (QMS) online, prior to engaging in a workplace implementation. In this module, students will:

### AUDIENCE

Individuals directly involved in developing, implementing, or supporting their organization's Quality Management System

- Department Heads, Supervisors, Managers
- Documentation specialists
- Members of the implementation team
- Members of the internal audit team
- Staff responsible for Quality issues

- Explore a fictional manufacturer, choose an outcome for the QMS implementation, and assign tasks to staff members being mindful of how selections align with desired outcomes.
- Manage the scope of implementation, develop a plan and, through trial and error, learn to avoid pitfalls.
- Understand roles in the implementation process and explore resource challenges and trade-offs.

### Advantages for your organization:

- Efficient online training, employees learn according to YOUR scheduling requirements;
- Choose from multiple scenarios, each reflecting different sets of resource constraints that represent your actual workplace environment;
- Ensure that implementation-critical staff have explored QMS implementation paths and pitfalls before they start the process within the organization;
- Increase understanding of the implementation process, challenges, and success factors; and
- Introduce your Internal Auditors to the QMS requirements.
