Safety at Work

An Introduction to OHSAS 18001

About

Safety at Work: An Introduction to OHSAS 18001 is an interactive learning module aimed at engaging all users to help them understand and observe the standard in action. This tool is based on problem solving in a virtual environment.

Safety at Work provides a dynamic web-based learning opportunity to raise awareness of OHS Management System Standards amongst front line staff members in an organization. The solution requires minimal resource commitments, and offers great engagement and behaviour modification. The entire experience typically takes no more than one hour to complete. In this module, students will:

- Explore the importance of identifying occupational health and safety (OHS) problems and determining their causes;
- Discover the value of a structured OHS management system;
- Observe fundamentally how this management system can apply in their workplace;
- Gain knowledge of key terms, such as: "Acceptable risk"; "Corrective action"; and "Hazard identification"; and
- Experience the importance of searching for and identifying underlying causes of Occupational Health & Safety issues.

Advantages for your organization:

- Efficient online training, employees learn according to YOUR scheduling requirements;
- Increase understanding of Occupational Health & Safety Management Systems within all levels of your organization; and
- Quickly bring new employees' up-to-speed to understand your OHS Management System.
