CSA OnDemand™ for Administrators

Helping administrators unlock the value of standards in their organization

CSA OnDemand™ offers administrators, librarians and users incredible choice in the way they purchase and access standards information. *CSA OnDemand*™ is CSA Group's new subscription service that helps you maximize productivity through immediate and cost-effective access to the standards you need to help meet your organizational goals, academic needs or compliance requirements.

How *CSA OnDemand*™ Works for Administrators:

- Powerful and simple administration tools allowing you to invite any number of users
- Add your own customized company messages and support contact information
- Quickly add new documents or add additional users at any time
- Clear, timely notifications let you quickly renew your subscriptions easily and make any desired adjustments
- Build your own, customized collection of standards online or leverage our pre-built collections for best value
- Easily view Wish lists to access your team's requested documents
- Ability to share your subscription cart with other users via email

Why Choose *CSA OnDemand*™

- Provides 24/7 access to the standards content you and your organization needs, whether you're in the office, at the job site or in the classroom – all available in one place!
- Seamless digital rights management protections that do not require a plug-in reduce risks while protecting intellectual property rights
- Offers your choice of named user or IP-authenticated access
- Significantly discounted academic pricing available
